

## Microsoft Edge closes down immediately

1. Open regedit
2. go to location as below `HKEY_CURRENT_USER\SOFTWARE\Classes\Local`

`Settings\Software\Microsoft\Windows\CurrentVersion\AppContainer\Storage\microsoft.microsoftedge_8wekyb3d8bbwe`

3. right click folder "microsoft.microsoftedge\_8wekyb3d8bbwe" at the left panel, and click Permission.
4. select third Unknown account (S-1-15-3-3624051433 ....)
5. You will see only Read permission is selected. Let's check "All permission".
6. Click OK and close the window.

Now good to go.
